

## Fundamentals Appendix: Auto Save Statistics

The Auto-Save function is a helpful additional safety measure though it should not be used as the primary save function. Frequent use of the save buttons available on most screens should always be the primary method for saving.

This following table identifies the screens with and without Auto-Save. Auto-Save interval is based on user preference settings.

View	Top Tab	Screen	Has Auto-Save?	
School	School	Setup - Setup - Details	Yes
