The information collected on Form 1701 is used in the calculation of Full Time Equivalent (FTE) students for public schools. The FTE values are then used to determine funding levels based on School Type.

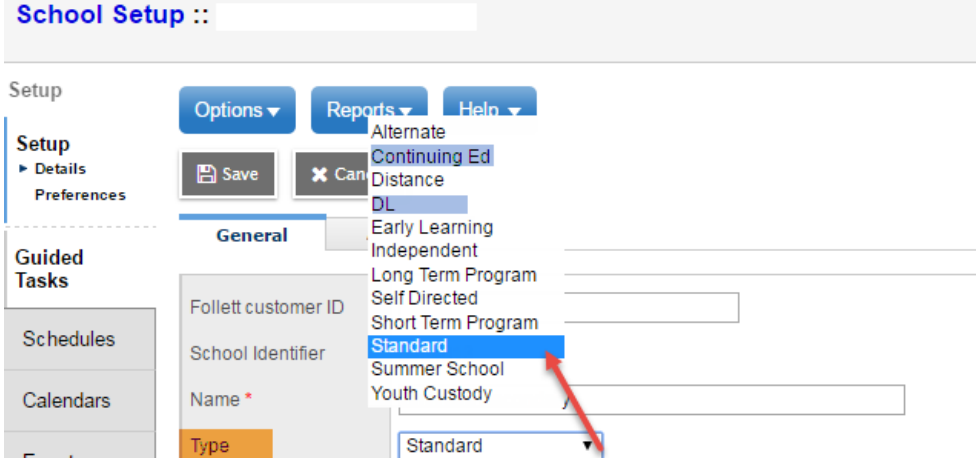

Specific information on how students are counted in different scenarios can be found on the Ministry of Education data collections site at: <http://www.bced.gov.bc.ca/datacollections>

This document identifies where the data for 1701 is drawn from in MyEducation BC, how it may be verified and extracted, and resources which may be used to assist in data entry.

3.0 Student Program Codes

All 1701 Program Codes, and Funded ELL Codes are available for all schools to use at the Enterprise level. Some Districts have created District Level 1701 Codes, and ELL Codes. The system allows Districts to create a program using a code that is already in use by another District, which can result in a student program displaying incorrectly in the 1701 export and report. If a Student displays the wrong Enrolled Program Code on the 1701, submit a ticket to the service desk for assistance.

The District Setup Guide provides instructions on how to create a District Program Code.

4.0 Summer Schools

Summer Schools have unique 1701 reporting requirements. Schools and Districts ensure that the students, courses and designations meet the Ministry of Education funding requirements. Options are provided on the export parameter form to allow for the exclusion of certain students or designations.

For full details on Summer School 1701 requirements please see the Ministry of Education website:

<https://www2.gov.bc.ca/gov/content/education-training/k-12/administration/program-management/data-collections/summer-learning>
