1.0 Class Attendance in MyEducation BC

Class attendance and Daily attendance are separate functions in MyEducation BC. An entry can be created for individual Classes, and one entry created for a Daily attendance value on a given day.

If a School creates a Daily value for a student in addition to class values, school Preferences settings will determine the way a Daily attendance value is created. A Daily value can be created by the posting of one or more Class values, or through the Class to Daily Attendance Procedure.

With Class based attendance, MyEducation BC is set up to record one attendance record per student per class.

- The class attendance record stores the date, the code and whether the late, dismissed, or excused checkboxes were selected.
- The arrival and departure times.

Class Attendance in MyEducation BC can be recorded through the School Office view or through the Teacher Staff view:

- School view > Attendance > Class Office
- Staff view > Class Attendance

The School Setup and Staff Class Attendance input vary slightly depending on the method of Class Attendance selected. Detailed instructions for Staff view attendance are found in the Staff View Setup and Navigation guide.

The School Class Office entry is done in the same way regardless of the method of class attendance selected.

Schools must be setup with an active schedule and days assigned if using course sections in the calendar. See the *School Setup* guide for details.

2.0 Class Attendance Options

Class attendance will track which individual classes or course sections your students attended. Class attendance can be taken:

- Once a day by an identified course section
- Twice a day by identified course section(s)
- In each course section scheduled in a day
 - Can be taken twice in a course section that is scheduled twice on the same day

Class attendance can create a Daily attendance value for a student based on School Preference settings:

- The initial posting of *one selected period class attendance* creates a daily attendance value for the student. After the initial class posting, subsequent changes to the daily value can be adjusted by the office as needed.
- The initial posting of *two selected period class attendances* creates a daily attendance value. Each period accounts for a partial amount of the day. After the initial class postings, subsequent changes to the daily value can be adjusted by the office as needed.
- *Class to Daily attendance procedure* creates a daily value for a student based on the class value entered in each scheduled class if one is not created through a class posting. The daily value for the student will be visible on the following day.
 - This procedure will increase the daily value based on class attendance; it will not reduce the daily value based on class attendance. Reduction to a daily value can be adjusted by the office as needed.

Attendance setup for your school is done from the *School top tab > Setup side tab > Preferences* leaf. Both the Daily Attendance and Period Attendance dropdowns will have preference settings for class attendance.

3.0 No Daily Attendance Value created from Class Posting

3.1 Daily Attendance Preferences

School top tab > Setup side tab > Preferences > Category dropdown: Daily Attendance > Basic

- These two settings must be set: **Classroom Input Type to Homeroom** - This setting prevents a daily value from being created by a period class attendance posting.
- **Show Daily Side tab in Staff view to unchecked** - Daily values and Class values are separate, this should only be checked in schools where the teacher is creating a daily value based on students in the homeroom. If the Daily side tab is visible in Staff view a Daily value can be posted for the students listed, overwriting any entry made by the office.

School top tab > Setup side tab > Preferences > Category dropdown: Daily Attendance > Advanced

For details on Weekend Attendance, see the School Setup guide

Second Daily Attendance:

- Second daily attendance – Unchecked
- AM portion absent – Blank
- Classroom input type – Homeroom
- Classroom input period – N/A

Attendance Activity Tracking: District settings determine if a school can edit these fields

- Attendance Activity Tracking – Unchecked – not for use in BC
- Restrict [edit] link in staff view (this setting applies to both class and daily attendance)

- Checked: Presents a view only popup in Staff > Attendance
- Unchecked: Presents an editable popup in Staff > Attendance

The screenshot shows the 'Setup' page in the MyEducationBC system, specifically the 'Advanced' tab for attendance preferences. The left sidebar contains a 'Guided Tasks' menu with options like Online Registration, Schedules, Calendars, Events, Lockers, Membership, Journals, Cashier's Office, Ed. Plans, Grid Codes, and Groups. The main content area is divided into sections: 'Weekend Attendance' with checkboxes for Saturday and Sunday; 'Second Daily Attendance' with a checkbox for 'Second daily attendance', a text input for 'AM portion absent' (set to 1), and a dropdown for 'Classroom input type' (set to 'Homeroom'); and 'Attendance Activity Tracking' with checkboxes for 'Attendance activity tracking' and 'Restrict [edit] link in staff view'. At the bottom are 'Save' and 'Cancel' buttons. A red rectangle highlights the 'Second Daily Attendance' section.

If the School Office is entering a Daily attendance value, the following Daily Attendance preferences can also be set. The Advanced Tab allows for the selection of Weekend Attendance if applicable (See School Setup guide for details) and Second Daily Attendance settings which are not applicable to this attendance type.

- Classroom Input Period: N/A
- Recent attendance history cut-off – the number of days of attendance history shown in the Recent Attendance filter.
- Allow daily attendance for past dates – N/A
- Previous day limit – N/A
- Daily Roster Input Buttons – select the number and type of buttons visible in the School > Attendance > Daily Roster side tab if used.
- Daily Office Input Buttons – select the number and type of buttons visible in the School > Attendance > Daily office side tab if used.
- Staff View Input Buttons – N/A

3.2 Class Attendance Preferences

School top tab > Setup side tab > Preferences > Category dropdown: Class Attendance > Basic

- **Post mode** - determines if and how many times a teacher may post class attendance information to a student record
 - **No Post** – Attendance will be recorded in the Staff view but will NOT be recorded in a student record
 - **Post** – Attendance can be posted to a student Class attendance record multiple times, overwriting the last entry.
 - **Post Once** – Attendance can be posted to a student Class attendance record once, changes made after the initial post will not change the student Class attendance record.
- **Allow Date Change in staff view** – Controls the Date Navigation setting in the Staff view > Attendance
 - **Checked** – Allows date change and attendance adjustment in Staff view (based on post mode setting)
 - **Unchecked** – Changes to Class attendance for previous dates is done only in the office via School view
- **Allow Date Change in Class Roster in School View** - Select this checkbox to enable staff members to be able to enter class attendance for dates other than today (School view, Attendance > Class Roster).
- **Enable Multi Add Button Class Office** - Select this checkbox to enable the Multi-Add button to appear on the Class Office page, allowing users to enter class attendance for several students (for many periods and dates) at once (School view, Attendance > Class Office).
- **Track Class Attendance by Period** - Check if the school has double blocked periods *and* would like an attendance record posted for both periods.
- **Display comment column**
 - Teachers can enter comments directly on Class Attendance input page for their use.
 - For the Comment column to appear, the school must first enable the Display comment column preference.

3.3 Class to Daily Procedure

The Class to Daily Procedure can be run for schools taking Class based attendance and not creating a Daily value.

This procedure can be set up to run nightly and will create a Daily Attendance value based on the classes absent divided by the total classes scheduled for the day. The Daily Attendance value will be visible the following day. This procedure will increase the daily value based on class attendance; it will not reduce the daily value based on class attendance. Reduction to a daily value can be adjusted by the office as needed.

The Class to Daily Nightly process only runs for the current date. If you want to capture historical attendance Class to Daily entries, you must manually run the procedure.

School view > School top tab > Setup side tab > Details leaf

The screenshot shows the 'School Setup :: Sardis Secondary' interface. The 'Setup' tab is active, and the 'Details' leaf is selected. The 'General' section contains fields for School Identifier (03333018), Name (Sardis Secondary), Type (Standard), School level (Secondary), Start grade (9), Number of grades (7), Build Year Context (2020), Default Transcript Definition (Quarterly - With School Exam), School Sub Type (Regular Day School), Phone 1 (604-645-3450), Phone 2, and Fax Number (604-650-2915). The 'Is inactive?' checkbox is unchecked. The 'Class to Daily Attendance Procedure?' checkbox is checked and highlighted with a red box. The 'Principal' and 'Vice Principal' fields are empty.

Class Attendance for all course sections is taken by selecting the corresponding button (A or L in the screenshot) on a given date and posted to the student record using the Post button. The Post button is active or greyed out depending on the school settings for Post Mode in the Class Attendance preferences screen.

The **first posting** by the teacher of the Class Attendance for the period creates the Daily Attendance value for the student. Subsequent Class Attendance postings for the section (if allowed by school Post Mode preferences) will update the Class attendance value, not the student Daily Attendance value. Any changes required to the student Daily Attendance value will be done through the office School view.

5.0 Daily Attendance Value Created from Two Class Postings

A Daily Attendance value is created from the posting of two selected period Class attendances, typically a morning and an afternoon class. Changes to the Daily value after the initial posting can be made through School or Staff view depending on preference settings.

5.1 Daily Attendance Preferences

School top tab > Setup side tab > Preferences > Category dropdown: Daily Attendance > Basic

These settings must be set:

- **Classroom Input Type** to *Period* - This setting allows a daily value to be created by a period class attendance posting.
- **Classroom Input Period:** Select the period of the day that will create the first or morning portion of the student Daily attendance value when the class attendance is posted.
- **Show Daily Side tab in Staff view** to *unchecked* – It is recommended that this only be checked in schools where the teacher is creating a daily value based on students in the homeroom, not a course section. If the Daily side tab is visible in Staff view a Daily value can be posted for the students listed in the staff homeroom, overwriting any entry made by the office.

The screenshot shows the 'School Setup :: Smithers Secondary' window. The 'Setup' side tab is selected, and the 'Preferences' category is chosen. The 'Daily Attendance' category is selected in the dropdown. The 'Basic' tab is active, showing settings for 'Daily Attendance Input'. The 'Classroom input type' is set to 'Period' and 'Classroom input period' is set to '1'. The 'General' section shows 'Recent attendance history cutoff (days)' as 30, 'Allow daily attendance for past dates' as checked, and 'Previous day limit' as 10. The 'Show daily side-tab in Staff view' checkbox is unchecked. The 'Daily Roster Input Buttons' section shows 3 buttons with codes A, L, and D, all with 'Pop-up' checked. The 'Daily Office Input Buttons' section shows 3 buttons with codes A, L, and D, all with 'Pop-up' checked. The 'Staff View Input Buttons' section shows 5 buttons with codes A, L, D, and two empty ones, all with 'Pop-up' unchecked. The 'Save' and 'Cancel' buttons are at the bottom.

School top tab > Setup side tab > Preferences > Category dropdown: Daily Attendance > Advanced

- **Second daily attendance:** *checked* – This setting allows a portion of the daily attendance to be created separately from the first posting
- **AM portion absent** – Enter the portion of the day that the morning absence counts for (.5 for half of the day)

- **Classroom input type** – Period - This setting allows a daily value to be created by a period class attendance posting
- **Classroom input period** - Select the period of the day that will create the second or afternoon portion of the student Daily attendance value when the class attendance is posted.

Attendance Activity Tracking: District settings determine if a school can edit these fields

- **Attendance Activity Tracking** – *Unchecked* – not for use in BC
- **Restrict [edit] link in staff view (this setting applies to both class and daily attendance)**
 - **Checked:** Presents a view only popup in Staff > Attendance
 - **Unchecked:** Presents an editable popup in Staff > Attendance

The screenshot shows the 'School Setup' interface for 'Smithers Secondary'. The 'Attendance' tab is selected. On the left, a sidebar lists various setup categories like 'Guided Tasks', 'Schedules', 'Calendars', etc. The main area is divided into 'Basic' and 'Advanced' tabs. The 'Advanced' tab is active, showing settings for 'Daily Attendance'. A red box highlights the 'Second Daily Attendance' section, which includes a checked checkbox for 'Second daily attendance', a text input for 'AM portion absent' with the value '5', a dropdown for 'Classroom input type' set to 'Period', and a dropdown for 'Classroom input period' set to '4'. There are 'Save' and 'Cancel' buttons at the bottom of the section.

If the School Office is entering a Daily attendance value, the following Daily Attendance preferences can also be set. The Advanced Tab allows for the selection of Weekend Attendance if applicable (See School Setup guide for details).

- Recent attendance history cut-off – the number of days of attendance history shown in the Recent Attendance filter.
- Allow daily attendance for past dates – N/A
- Previous day limit – N/A

Student Daily Attendance values and Class or Period Attendance values are separate. This screen lists all the students in the school and has one column for the Daily code and columns for any scheduled periods in your school on the date selected on the top right of the screen. Records created for either the Daily or Class attendance values for a student will display in the appropriate columns.

Class attendance entered here will be visible in the Staff view, teachers can edit the record if necessary, prior to posting the Staff view attendance.

Note: Rotating your schedule in the Build View as a part of the Schedule Build process will allow this screen to list the course sections in the order they occur on the date selected. Using the Bell Schedule to rotate the school schedule presents this screen in a *flat schedule* order and the user will need to determine which order the periods occur on the date selected. See *Rotations, Pattern Library and Pattern Sets* reference guide for further details.

System Filters on the Class Office side tab include:

- **All Records:** This contains every student in the school, regardless of whether they have an existing attendance record or not.

Filters to narrow the scope of the list:

- **Attendance Activity:** Students with any attendance records assigned to them on the given date, regardless of whether they are Daily Attendance or Class Attendance records
- **Truant List:** Students that have Absence records assigned in one or more classes during the day, but the student Daily Attendance value is empty
- **Course Section = ?:** Students scheduled into the selected course section
- **Attendance Discrepancy:** Students with a Daily Attendance value of Absent, but have no Absent records for any of their classes that day
- **Grade Level =?:** Students in a selected grade
- **Group =?:** Students in a specified group
- **Homeroom =?** Students in a selected homeroom
- **Program =?** Students in a specified program

6.1.1.1 Attendance Discrepancy - Daily Attendance To Class Attendance Procedure

School View > Attendance top tab > Class Office side tab > filter = Attendance Discrepancy > Options > Attendance Discrepancy - Daily Attendance To Class Attendance

The purpose of this procedure is to push attendance records from the Daily Code column to the Period Columns in the Class Office side tab to every scheduled period for a student on a specific day avoiding the need to use the chevrons and doing the process one at a time.

- eliminates the need to push the values out one by one using the chevrons.
- works only with the Attendance Discrepancy filter.
- gives users the option of running the procedure from anywhere in the Class Office side tab but will only run for records identified in the Attendance Discrepancy filter.

6.1.2 Taking Class Attendance in the Class Office Side Tab

If a Daily Attendance record exists, the values can be “pushed out” to all the classes. In the **Daily Code** column, there will be a Daily Attendance value, followed by two “greater than” symbols, like so: >>. Click that symbol and it will copy the **A-E** code to each of the student’s classes. This value will push out to all course sections scheduled that day. If the absence is for a portion of the day only, adjust the class attendance by period as needed.

When the teacher logs in, it will show that student has been marked absent for that section.

6.1.3 Entering Class Attendance for Multiple Students at the Same Time – Two process choices

6.1.3.1 Process 1 - Class Attendance > Multi Add Button

School users can enter class attendance for several students, for many periods and dates, at once. Use the Multi-Add button on the Class Attendance Office Input page to enter the same attendance code for several students at once by section, homeroom, group, query, snapshot, or selection. This is not a BC Specific process.

School View > Attendance Top Tab > Class Office Side Tab > Multi Add Button

The screenshot shows the 'Class Attendance Office Input' page. At the top, there's a navigation bar with tabs like Pages, School, Student, Staff, Attendance, Conduct, Grades, Assessment, Schedule, Extracurriculars, Global, Tools, Admin, and Mobile View. Below this, the 'Attendance' tab is active. The page title is 'Class Attendance Office Input'. On the left, there's a sidebar with options like Daily Office, Daily Roster, Daily Batch, Daily History, Daily Summary, Class Office, and Class. The main area shows a table of students with columns: Name, Pupil #, Grade, Daily Code, and a grid for periods 1-4, CE, OT, and ZZ. A red box highlights the 'Multi-Add' button in the top right corner.

To enter attendance for several students at a time on the Class Attendance Office Input page:

- Click Multi-Add Button - The Multi-Add Attendance pop-up appears.

Class Office Multi-Add Button pop-up

The screenshot shows the 'Class Office Multi-Add Button pop-up'. The pop-up is titled 'School: Crow Point High School'. It has two main sections: 'Students' and 'Duplicate Records'. Under 'Students', there are radio buttons for Section, Homeroom, Group, Query, Snapshot, and Selection. Under 'Duplicate Records', there are radio buttons for Skip (selected) and Replace. Below these, it says 'Selected students: 0'. The bottom section contains fields for Date, Periods, Absent?, Tardy?, Dismissed?, Time In, Time Out, Excused?, Other code, Other code 2, Reason, and Comment. At the bottom, there are buttons for Preview, Save, and Cancel.

6.1.3.2 Students

Select Students - Section, Homeroom, Group, Query, Snapshot, or Selection.

Note: If you select Query or Snapshot, the queries and snapshots available are the saved queries and snapshots on the Student tab.

In the pick list, select the section, homeroom, group, query, snapshot, or selection containing the students you want to enter the same attendance code for, and then click OK. Review the Selected students value to ensure that number matches your expectations.

6.1.3.3 Duplicate Records

To determine what you want the system to do if students you include already have an attendance record for this date, select Skip or Replace.

Note: Skip is the default. If a student has an attendance record because, for example, the parent called the school to report their absence, then MyEducation BC will skip that student. If you select Replace, MyEducation BC overwrites the existing record.

6.1.3.4 Date

To enter this attendance record for the selected students for multiple dates, click Multiple Dates. The Multi-Add Attendance pop-up displays Start date and End date fields for you to populate.

In the pop-up, enter the attendance information that applies to all the selected students.

6.1.3.5 Other Code and Reason Fields

At the Other code and Reason fields, you can provide an explanation for the absence, such as a field trip. Enter any additional information for the records in the Comment field.

6.1.3.6 Action Items

Do one of the following:

Click Preview to view the student class attendance records and, when appropriate, daily attendance records that will be created. Then, click Cancel or Save to proceed.

Click Save to close the pop-up. The attendance records for the students you selected appear on the Class Attendance Office Input page.

Note: If your school has set the Daily Attendance preference Classroom input type to Period, then the corresponding daily attendance records will be created.

6.1.6 Secondary School Management

Secondary School Management handles how your school works with Cross-Enrolled students. These settings will allow students to show in your *All Active Students* and *All Students* filters. They also control which school has the ability to create or own a Daily Attendance record.

School > Setup > Preferences > Secondary School Management

- **Secondary Students**
 - **Checked** - will include students with secondary associations to your school in the *Active Students* and related filters along with the student's primary to your school. *This is the recommended setting in BC for full functionality.*
 - **Unchecked** – will not include students with secondary associations to your school in the *Active Students* and related filters. Secondary students will show in *All Students*.
- **Secondary School Management** - pull-down menu determines which school can take and manage *Daily Attendance*.
 - **None** – Only the Primary School can create and manage the Daily Attendance record.
 - **Sole** – Only the Secondary school can create and manage the Daily Attendance record.
 - **Shared** – Either the Primary or any of the student's Secondary schools can create the Daily record; however, once a record is created on a day only the school that created it can modify it at any point.

Note: This pull-down menu **ONLY** affects Daily Attendance. Class attendance for any course section can be edited by any one of the students Primary or Secondary schools.

6.1.7 Positive Attendance in individual sections

Positive Attendance is Class Attendance where a student is defaulted to Absent and is marked Present if in attendance.
