# Competency- Based Individual Education Plans

---

August 2022 v1.15

---

## Version History

Version	Date	Description
1.0	Oct 2018	Initial published version
1.1	Nov 2018	Clarified the Supplementary Plan district reference table for additional selection items and goal entry order
1.2	Jan 2019	Updated for 5.9 Release: New Filters.
1.3	Mar 2019	1. New field 'Type of Goal' added to competency based IEP template under objectives of curricular competency goals tab (Section 4.1.5). 2. Type of Goal will be populated on the CB IEP report if selected (Section 9).
1.4	Apr 2019	Updated PSR IEP Inclusions section. Added hyperlinks to Table of Contents.
1.5	Jul 2019	Clarification in multiple areas that the Case Manager picklist requires the Staff Details to be populated
1.6	Jul 2019	Added new Release 5.10 features to sections 2.1 and 8
1.7	Oct 2019	Updated screenshot for new default field set
1.8	Nov 2019	Updated for 10.0 Printing the Competency Based IEP
1.9	Apr 2020	Updated the screenshot of student demographic screen to show DOB with format hint
1.10	Aug 2020	Updated screenshot for the support type in the CB IEP report
1.11	Oct 2020	Updated document from Competency based Inclusive Education Plans to Competency Based Individual Education Plans
1.12	Feb 2021	Updated the document with new screenshot for report, updated screen shots for Completing plan section
1.13	Jul 2021	6.3 New filter-Next year student on Student TT Section 2.5 Staff Inclusive Education Role
1.14	Aug 2022	Progress Report and Process/Change Management updates for clarification Parent Portal visibility, update on where you can run the Competency Based IEP report and update PSR Inclusion templates

## 1.0 Introduction

In MyEducation BC, the Student Services module provides a simple interface that allows users to write support plans and review student progress. The module is flexible enough to align with district practice while capturing all of the required data elements for the Student Plan.

There are two formats available for the purpose of documenting the services provided to students to support their education. The Individual Education Plan format and the Competency Based format. Districts in partnership with their Student Services departments can choose which format will be in use within their district. The form used will be a district wide commitment.

Submit a Service Request to have the default template set to the Competency based IEP, if that is the desired format for the district.

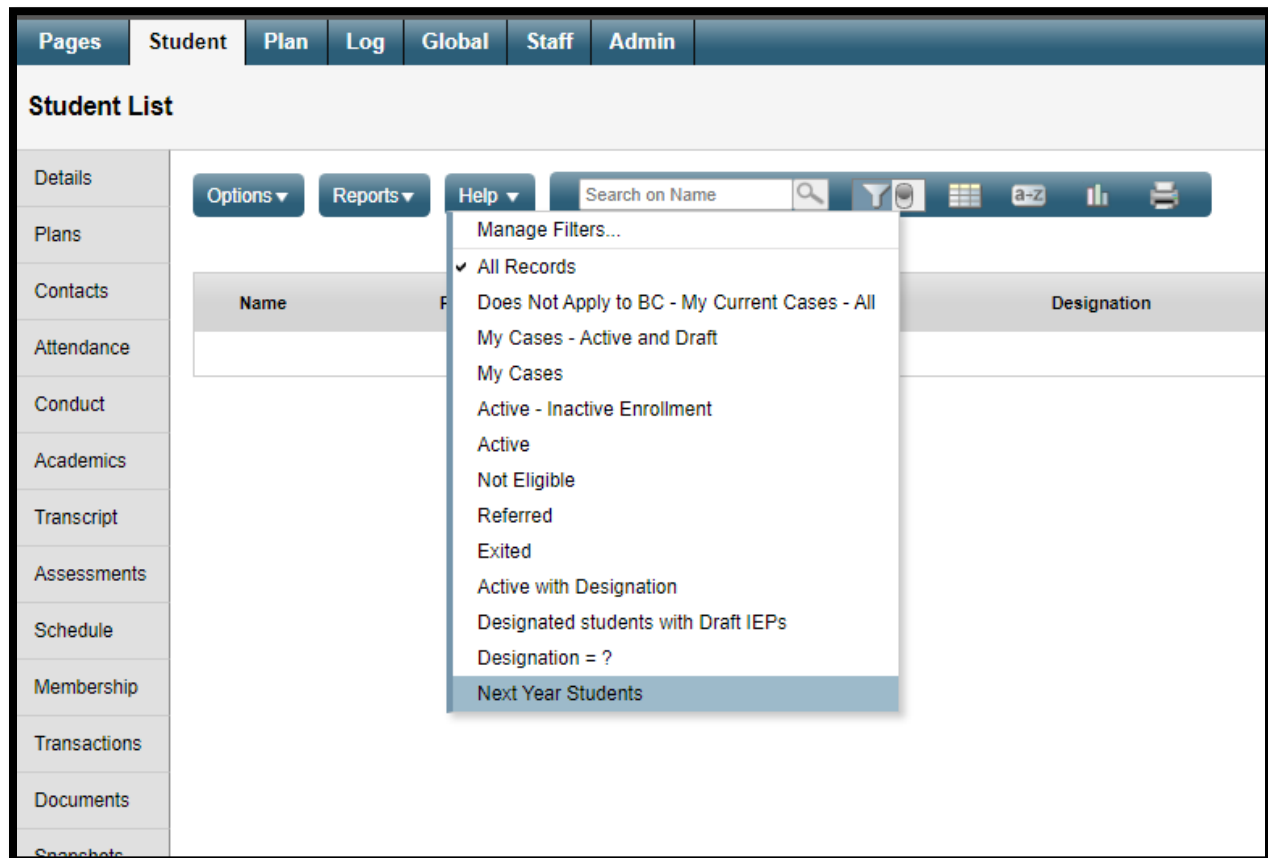

Important note: If there is an existing plan for a student a user can continue to work on it in its current format. Data from one plan format (Individual Education) does not copy into the different format (Competency Based) and vice versa. A new plan is created in the format that has been defined as the default for the district.

## 2.0 Navigating in the Special Education View

Users with the role of *Student Services – School* have access to Student Services – School view to manage support plans for students at a defined school. Users with the *Student Services - District* role have access to the Student Services - Organization view and Student Services – School view to manage student services for all schools in the district.

### 2.1 Student Top Tab

The Student TT provides access to the list of students enrolled in student services. Choose the students that you want to work with using the filters provided.

Filter	Results
All Records	Displays all records
Does Not Apply to BC-My Current Cases C)	This filter will not return any records. Click on the filter icon and choose to Manage your filters. Select <b>My Current Cases – All (Not Applicable to BC)</b> and move it to the bottom of the list.

Filter	Results
My Current Cases – Active and Draft	Presents a list of students with an Active or Draft plan
My Cases	Presents a list of all students in your case load with an Active, Draft, Previous or Discarded plan
Active	Presents a list of students with an Individual Education status of Active
Active-Inactive Enrollment	Present a list of students who have an Enrollment status of withdrawn or graduated and an Active plan/status in Student Services.
Not Eligible	Not relevant for BC. Filter based on workflow model to set Individual Ed status to Ineligible
Referred	Not relevant for BC. Filter based on workflow model to set Individual Ed status to Referred
Exited	Presents a list of students with Individual Ed status of Exited.
Active with Designation	(To be Removed)Doesn't work – shows Active and Exited students with designations
Designated students with Draft IEPs	Displays students with a designation and a draft Plan
Designation = ?	Query for students with a specific designation
Next Year Students	Presents a list where the student's next year school value is equal to the school and the SpedStatus is not empty.

## 2.1.1 Details side tab – displays the basic student demographic details

Pupil #	975276	
Personal Education Number	128697851	
Usual last name	Aalders	
Usual first name	Poksui	
Gender	F	
Date of birth (dd/mm/yyyy)	17/03/2003 Age 17	
Home phone	604-811-0905	
Cell phone		
Student email	<a href="mailto:clow3664o3ns@97d9o.gl">clow3664o3ns@97d9o.gl</a>	
Homeroom	C102	
Grade level	10	
Primary Designation	P	
Inclusive Education Status	Active	
Inclusive Education Referral Date		
Discontinue Services		
 Save  Cancel		

## 2.1.2 Plans side tab – displays a list of the student's plans.

Transcript

- Filter the plans to display, using the dictionary icon 

## 2.1.3 Contacts side tab – Displays the list of the student contacts.

- Contacts with *Include on Plan* checked and *Parent or Guardian?* = Y will print on the student Plan.

## 2.1.4 Attendance; Conduct; Academics; Transcript; Assessments; Schedule; Membership; Transactions; Documents; Snapshots –

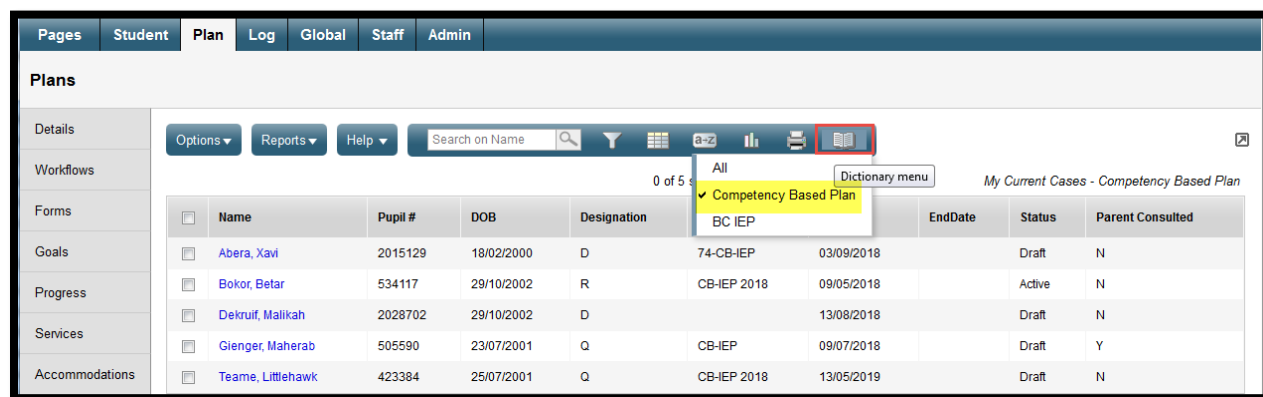

- These tabs are the same as the school view, each provide further details on the student. In the Special Education view, the data is read-only.

## 2.2 Plan Top Tab

The Plan TT lists the student Plans. Filter the types of plans that display by using the Dictionary icon. 

Clicking on the student name in a given row will open the details of that particular Plan. Choose the plans that you want to work with using the filters provided.

A student services field set is provided which can be modified to include other relevant fields for the user.

The screenshot shows the 'Plans' section of a software interface. At the top, there are tabs for Pages, Student, Plan, Log, Global, Staff, and Admin. Below the tabs, there's a sidebar with options like Details, Workflows, Forms, Goals, Progress, Services, and Accommodations. The main area displays a table of student plans. A 'Dictionary menu' is open, showing options like 'All', 'Competency Based Plan', and 'BC IEP'. The table has columns for Name, Pupil #, DOB, Designation, EndDate, Status, and Parent Consulted. The table shows 5 records, with the first one highlighted.

Name	Pupil #	DOB	Designation	EndDate	Status	Parent Consulted
Abera, Xavi	2015129	18/02/2000	D	03/09/2018	Draft	N
Bokor, Betar	534117	29/10/2002	R	09/05/2018	Active	N
Dekruif, Malukah	2028702	29/10/2002	D	13/08/2018	Draft	N
Gienger, Maherab	505590	23/07/2001	Q	09/07/2018	Draft	Y
Teame, Littlehawk	423384	25/07/2001	Q	13/05/2019	Draft	N

Filter	Results
Does not Apply to BC - My Current Cases - All	This filter will not return any records. Click on the filter icon and choose to Manage your filters. Select <b>Does not Apply to BC - My Current Cases - All</b> and move it to the bottom of the list.
My Current Cases – Active and Draft	Presents a list of students with an Active or Draft plan
My Cases	Presents a list of all students in your case load with an Active, Draft, Previous or Discarded plan
Active IEPS	Presents a list of students with an Individual Education plan status of Active
Draft IEPS	Presents a list of students with an Individual Education plan status of Draft
Previous IEPS	Presents a list of students with an Individual Education plan status of Previous
All Records	Displays all records
Grade Level = ?	Presents a list of Plans for students in the requested grade
IEP Status = ?	Presents a list of Plans with the requested status
IEP Type – Not Relevant to BC	Do not use
Provider = Does not Apply to BC	Do not use
Active Student with Active IEPs	Presents a list of Students with Active Plans
Incomplete Ministry Identification wkfl	No longer relevant with the removal of workflows
Plans with No Dates	Presents a list of plans without dates

- **Details Side Tab**– Provides the Plan details of the selected record. A Plan in progress can be accessed to edit from here.

- **Forms Side Tab** – Provides access to the forms associated with the selected record. These are historical records tied to the retired workflows. Users can manually enter information in the forms but it will not print on the report or display in the Plan.
- **Goals Side Tab** – does not work for Competency Based plans.
- **Progress Side Tab** – Allows access to the goal progress reports created for the Plan.
- **Team Members Side Tab** – Shows the identified school based team members for the Plan.
- **Access Log Side Tab** - Displays those users who have accessed the selected Plan.

## 2.3 Log Top Tab

The Log Top Tab is a place to record interactions between the support team and the student and family.

Entry Log Details

- **Goals** – Gives a view of all students and their assigned goals.
- **Progress** – Will show all students' Plan goal progress report records.
- **Team Members** – Lists the students and team members. These fields can be sorted to show the student and all associated team members or team members and the students associated with them.
- **Designations** – Lists the students with designations
- **Goal Bank** – Contains the user's banked goals and associated objectives. This doesn't apply to Competency Based Plans. Staff Top Tab

## 2.5 Staff Top Tab

The Staff TT provides a listing of staff members with Special education checked in their staff details.

The screenshot shows a 'Staff List' table with the following columns: Name, StaffID, Type, Homeroom, Primary HmRm Tchr, HomePhone, CellPhone, Email1, School > Name, Status, User, Login, GenPW, and EmployeeNum. The table lists six staff members from Smithers Secondary, all with 'Active' status. The 'Inclusive Education' checkbox is not visible in this view.

Name	StaffID	Type	Homeroom	Primary HmRm Tchr	HomePhone	CellPhone	Email1	School > Name	Status	User	Login	GenPW	EmployeeNum
Baronhalcro, Jorecho	195307	Support		N			ctmkh@nj20.tc.om	Smithers Secondary	Active	Y	jbaronhalcro_sc118210		
Brikanovic, Jalin	716188	Teacher	LEEH	N			pgrmkq@h23.s.hg	Smithers Secondary	Active	Y	jbrkanovic_sc119617		
Brownanute, Hannes	716164	Teacher	FINDLAY	N			ocedfip@h34.vw.bw	Smithers Secondary	Active	Y	hbrownanute_sc98475		
Chabok, Mulan	716140	Teacher	DEVISON	N			ub-novrsel@k31.ny.dl	Smithers Secondary	Active	Y	mchabok_sc180730

Thelade, Kaladawn	716191	Administrator		N			whkdi.efhiv@u77.cb.wd	Smithers Secondary	Active	Y	kthelade_sc181814		

The screenshot shows the 'Staff List :: Aamer, Shabdsanskar' details form. The 'Inclusive Education' checkbox is checked, and the 'Inclusive Education Role' is set to 'Spec. Ed Teacher'. The 'Receive Online Reg emails' checkbox is unchecked.

Field	Value
Suffix	
Legal first name *	Shabdsanskar
Legal middle name	
Legal last name *	Aamer
Usual first name	Shabdsanskar
Usual last name	Aamer
Login ID	saamer_sc617110
Date of birth (mm/dd/yyyy)	
Gender	M
School > Name	Constable Neil Bruce Middle
Staff Type	Teacher
Staff ID	S1041995
Employee number	
Calendar ID	
Inclusive Education	<input checked="" type="checkbox"/>
Inclusive Education Role	Spec. Ed Teacher
Receive Online Reg emails	<input type="checkbox"/>

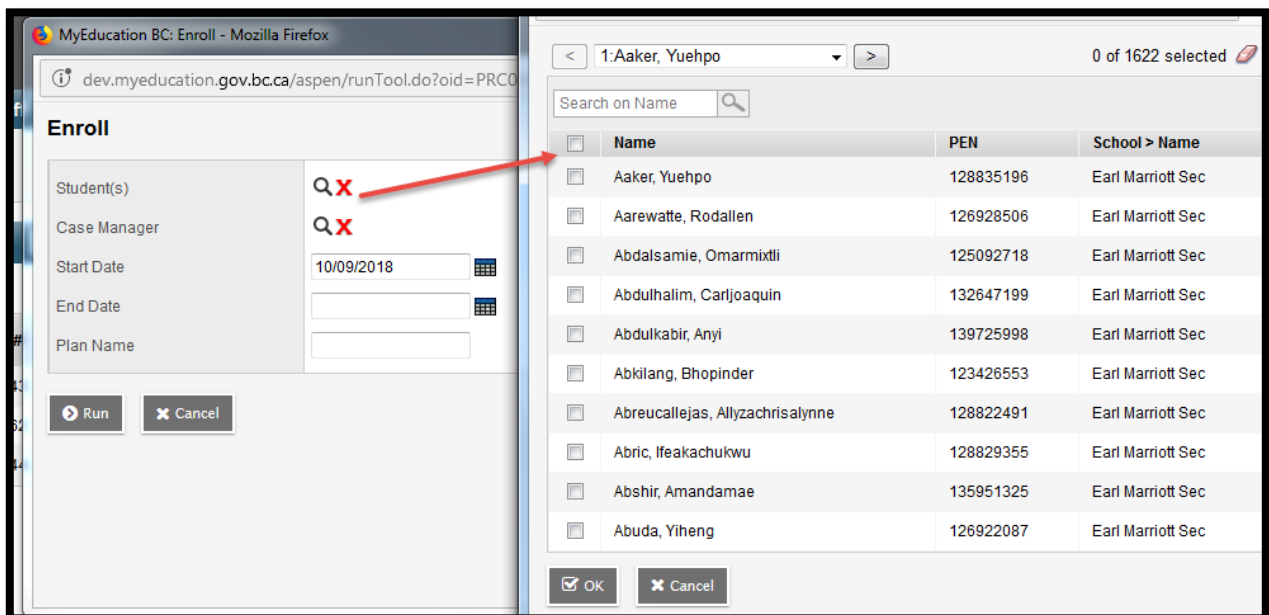

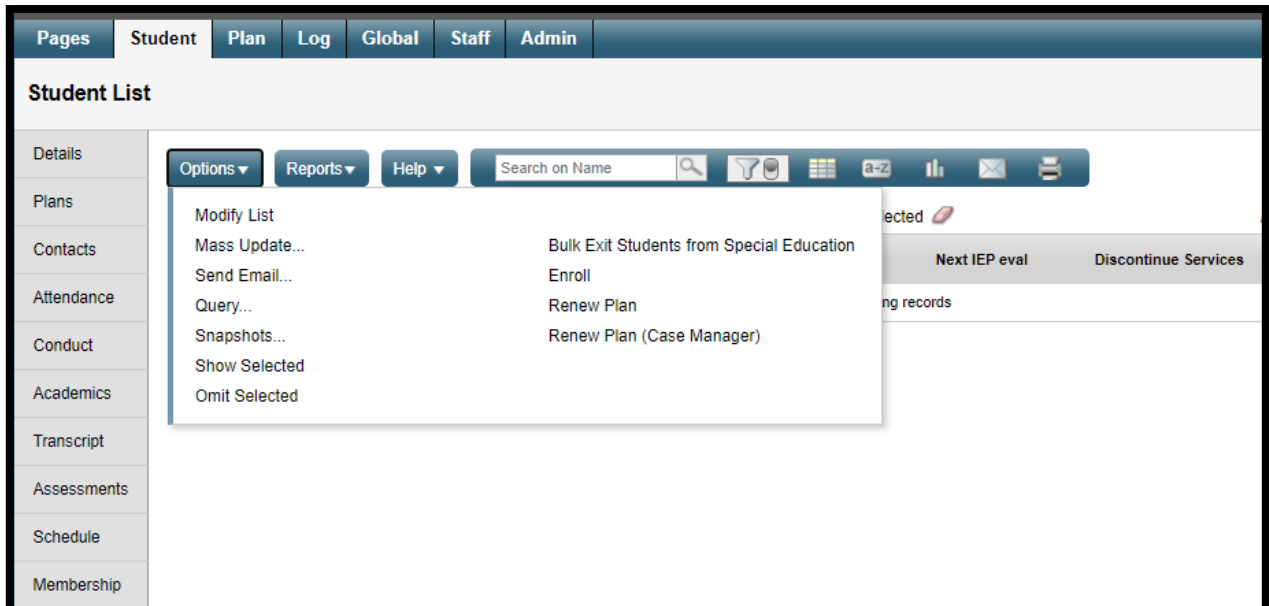

District View and School View > Staff Top Tab > Select teacher > Details Side Tab

Selecting the Inclusive Education check box (and a corresponding Inclusive Education Role) will display the Staff member in a pick list in the Student Services Module. This enables staff members to appear within the Student Services Module in a pick list to assign them to the School Support Team on the CB-IEP.

## 3.0 Enrolling a Student in Student Services

A student must be enrolled in Student Services before a Plan can be developed for the delivery of support services.

*Student Services – District or School view > Student TT > Options > Enroll*

- **Student(s)** - Use the picklist to select the student or students. Search by name or use the page navigation at the top. Only students that are not currently enrolled in Student Services will display on the list.
- **Case Manager** – Select a Case Manager for all students selected (optional). The staff member must have the Individual Education checkbox ticked, and the Case Manager

role assigned on the Staff details to appear on this list. (*School or District view > Staff > Details*)

- **Start Date** – Date of enrollment in Student Services. This date becomes the start date for the Draft plan. All Plans require a start date.
- **End Date** – Date that the plan will end. This is an optional entry at the time of enrollment, but if your district policy is to create a new plan each year then it would be advisable to enter the end date now. An existing plan must have an end date before a new plan can be started.
- **Plan Name** – enter the name of the plan. The standard naming convention is District number–plan type–other identifiers. For example: 35-IEP-2018-19 or 36-SSP-Grade4

## 4.0 Student Plans

The status of a student plan is determined by the start and end date of the plan.

- Active – the current plan used day-to-day to support the student
- Draft – a plan being prepared to support the student in the future
- Previous – a plan used to support the student in the past

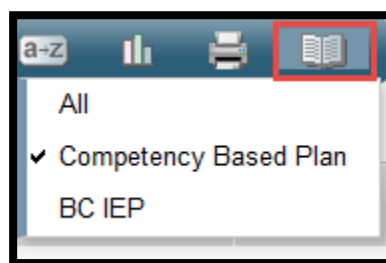

A Draft Plan is created for a student upon enrollment in Student Services. If the start date is a current or past date and the plan has been saved, the Plan will be Active.

### 4.1 Completing a Plan

*Student Services – District/School > Student > Plans > Details*

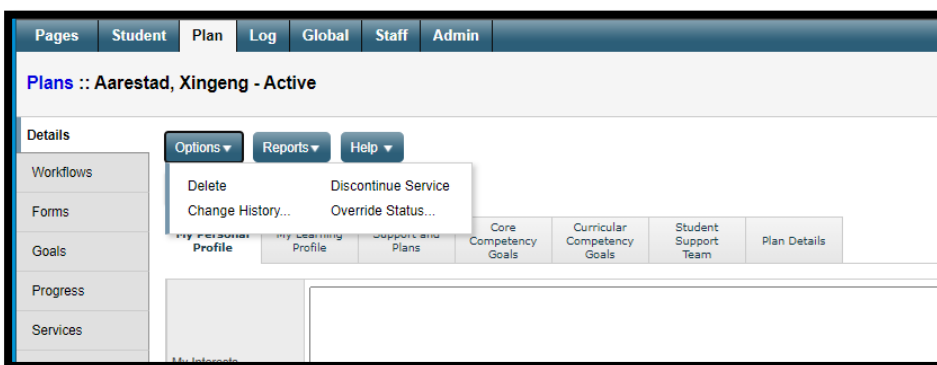

*Student Services – District/School > Plan > Details*

The Data Dictionary icon  can be used to view Individual Education plans, as well as Competency Based plans.

**There are seven tabs in the Plan Details screen**, as detailed in the following sections. All or a portion of the information can be completed as is appropriate for each student. Information can be added in any order, at any point in time.

**Note: Student Services – District** users have access to the Options menu at the top left of the screen, and the ability to delete a Plan when necessary. Use this menu with caution as *Options > Delete* will delete the entire Plan, not the row within the plan.

### 4.1.1 My Personal Profile Tab

The screenshot displays the 'My Personal Profile' tab within the MyEducationBC application. The interface includes a top navigation bar with tabs for 'Pages', 'Student', 'Plan', 'Log', 'Global', 'Staff', and 'Admin'. Below this, a status bar indicates 'Student List :: 10 - Aarestad, Xingeng :: Active'. The main content area is divided into a sidebar on the left and a central workspace. The sidebar contains links for 'Plans', 'Details', 'Designations', 'Workflows', 'Forms', 'Contacts', 'Attendance', 'Conduct', 'Academics', 'Transcript', 'Assessments', 'Schedule', 'Membership', 'Transactions', 'Documents', and 'Snapshots'. The central workspace is titled 'My Personal Profile' and features several sections: 'My Interests', 'Location of Evidence1', 'My Learning Preferences', 'Location of Evidence2', 'What You Need To Know About Me', and 'Location of Evidence3'. Each section has a large text area for input. The top of the workspace includes buttons for 'Options', 'Reports', and 'Help', as well as 'Save' and 'Cancel' buttons. A status message at the bottom indicates 'Auto-saved at 10:46 AM'.

- Have the student describe himself/herself in these areas. If you are unable to obtain student input (orally, in writing, or through pictures as appropriate) you may refer to parent and teacher input.
- If there are videos, pictures, or media about the student please indicate where to access them and/or include a URL link.

## 4.1.2 My Learning Profile Tab

The screenshot shows the 'My Learning Profile' tab in the MyEducationBC system. The interface includes a top navigation bar with tabs: Pages, Student, Plan, Log, Global, Staff, Admin. Below this is a 'Student List' header showing '10 - Aarestad, Xingeng :: Active'. The main content area has a left sidebar with a 'Plans' menu (Details, Designations, Workflows, Forms) and a 'Contacts' menu (Attendance, Conduct, Academics, Transcript, Assessments, Schedule, Membership, Transactions, Documents, Snapshots). The 'My Learning Profile' tab is selected, showing a form with three rows for 'My Competency Area' and 'My Focus Area'. A dropdown menu is open for the first row, showing options: Intellectual, Personal, and Social. The form also includes sections for 'My Strengths' and 'My Stretches'. At the bottom, there are 'Save' and 'Cancel' buttons.

- Core competencies are sets of intellectual, personal, and social proficiencies that all students need to develop.
- Select which area each strength and stretches are for.
- “Thoughts from my team” checkbox is used to indicate that the Learning profile was completed by the team members rather than in the student’s own voice.
- Check the “My Focus Area” to indicate the competency that the student focus is on. Students may need guidance with this, depending on their ability.

- Add Support category, type and description.
- Universal Classroom supports are supports that could be made available to any student to foster greater inclusion in the classroom. List supports here that are particularly helpful for this specific student.
- Essential Supports are identified through psycho-educational and/or medical testing and are necessary in order for the student to access the curriculum. They may require the use of technology or the direct involvement of specialist support staff.
- The Supplementary Plans are recorded here but are not attached. Optionally, enter the date that the plan was written. Refer to the student's confidential file to view the additional plans. Additional Supplementary Plan types can be added to the District reference table for Supplementary Plans by persons with District Support (Help Desk/Level 1) role.
- Enter Additional Comments as necessary.

#### 4.1.4 Core Competency Goals Tab

- Add Core Competency Goals as required. As many goals can be added as required.
- You may select a goal or personalize it in relation to your student. This should be based on the student's identified focus area and their stretches in the "My Learning Profile" section.

The screenshot shows the MyEducationBC interface for a student named 10 - Aarestad, Xingeng. The top navigation bar includes tabs for Pages, Student, Plan, Log, Global, Staff, and Admin. The main header displays the student's name and status (Active). Below the header, there are buttons for Options, Reports, and Help. A sidebar on the left lists various sections: Plans, Details, Designations, Workflows, Forms, Contacts, Attendance, Conduct, Academics, Transcript, Assessments, Schedule, Membership, Transactions, Documents, and Snapshots. The main content area is titled 'Core Competency Goals' and features a table with columns for ID, Core Competency, and Goal. The table currently shows 'No matching records'. At the bottom of the table, there are buttons for Save, Cancel, and an 'Add' button. A red box highlights the 'Core Competency Goals' tab in the sidebar.

- Click the Add button and the following input screen displays:

- Strategies** - Enter instructional resources, activities and staff that will aid the student in achieving the objective and explain how they will be used.

## 4.1.6 Student Support Team Tab

This allows individual team members to be added to the Plan, using the **Add** button at the bottom right, or removed using the **Delete** button. Names can be selected from the picklist or entered free form.

The screenshot shows the 'Student Support Team' tab in the MyEducationBC system. The main form has fields for 'UsualLast', 'UsualFirst', 'Name', and 'Role'. A red arrow points from the 'UsualLast' field to a pop-up window titled 'Team member type'. This pop-up window shows a dropdown for 'Team member type' set to 'Student Services Staff' and a list of staff members with their 'UsualLast' and 'UsualFirst' names. Two red callout boxes are present: one pointing to the 'Name' field with the text 'Enter a name in the text box' and another pointing to the 'Role' field with the text 'Select a team member by role'.

- **UsualLast** – The picklist displays a popup
  - **Team member type** – select the type from the dropdown list and select from the names displayed. Click **OK**.
- **UsualFirst** – Displays for the person selected.
- **Name** – Freeform text field for Name.
- **Role** – Select a staff member by role. Populates for selected staff when the role is assigned in Staff Details, or can be entered freeform.

## 4.1.7 Plan Details Tab

This displays the basic information of every student plan. All fields other than the student name and plan status are editable.

The screenshot shows the 'Plan Details' tab for a student named 'Aarestad, Xingeng'. The interface includes a sidebar with navigation options such as 'Plans', 'Contacts', 'Attendance', 'Conduct', 'Academics', 'Transcript', 'Assessments', 'Schedule', 'Membership', 'Transactions', 'Documents', and 'Snapshots'. The main content area displays the following fields:

- Name:** Aarestad, Xingeng
- Case Manager > Name:** Fabon, Riou (with a search icon and a red 'X' indicating a selection error)
- Status:** Active
- Start date:** 12/1/2019 (with a calendar icon)
- End date:** (empty field with a calendar icon)
- Plan review date:** (empty field with a calendar icon)
- Plan Name:** 43-IEP-2019/2020
- Parent Consulted:** ☐

Buttons for 'Save', 'Cancel', and 'Help' are located at the top of the form. A status message at the bottom indicates 'Auto-saved at 11:31 AM'.

- **Name** – Read Only
- **Case Manager > Name** – Select from picklist, auto-populates if selected during Enrollment to Student Services. The staff member must have the Individual Education checkbox ticked, and the Case Manager role assigned on the Staff details to appear on this list. (*School or District view > Staff > Details*).
- **Status** – Read Only
- **Start Date** – **Required** Select from calendar icon
- **End Date** – Select from calendar icon
- **Yearly Review Date** – Select from calendar icon
- **Plan Name** –used to identify the Plan. Recommended standard is District Number-Plan type-other identifiers as per district practice; 35-IEP-2018
- **Parent Consulted** – Checkbox. Go the LOG file and record the details of the parent consultation, including the date.
- **SAVE**

The plan status will be determined by the start and end dates of the plan, and the plan's current status.

## 4.2 Plan Status and Dates

The Plan status is determined by the start and end date of the plan. A Plan alert is triggered by an ACTIVE plan status.

- Active → Current. The plan you are following for the day to day support of the student
- Draft → Future. A plan that you are preparing for a future implementation
- Previous → Past. A plan that was used in the past

The following table identifies what the Plan status will be based on the dates recorded. A start date is a mandatory field.

Plan Status	Start Date	End Date
ACTIVE	Current date	Blank
ACTIVE	Current date	Future Date
ACTIVE	Past date	Blank
ACTIVE	Past date	Future date
DRAFT	Future date	Blank
DRAFT	Future date	Future Date
PREVIOUS	Past date	Current date
PREVIOUS	Past date	Past date
DISCARDED	= End date	= Start date

### 4.3 Plan Status Nightly Update

A procedure runs every evening to update the Competency Based Individual Education Plan status based on the start and end dates of the plan and the current status of the plan. The Plan Alert on the student table will be updated accordingly.

If the plan status is ACTIVE and the plan End date is earlier than the current date, then the plan status will be changed to PREVIOUS and the plan alert will be removed.

If the plan status is DRAFT and the plan Start Date is the current date or earlier, then the plan status will be changed to ACTIVE and the plan alert will be set.

If the plan status is PREVIOUS or DISCARDED, the record is ignored and no changes are made.

For example: Today's date is Jan 3. Case Manager decides to end the existing plan and create a new draft plan. She must enter an end date before the plan can be renewed. The overnight procedure runs at 2:00 am on Jan 4.

Current Status	Start Date	End Date	Status Change?
Active	Jan 20, 2017	Jan 4, 2018	Previous
Draft	Jan 5, 2018		No change

**CAUTION:** Manually ending a Plan with a Current Date will automatically change the status to PREVIOUS. The student must have an ACTIVE or DRAFT plan to be selected for Renewal. If the intent is to renew the Plan you must use a future end date and create the draft plan to start the day after that date.

## 5.0 Renewing a Plan

*Student Services District/School > Student TT > Options > Renew Plan or Renew Plan (Case Manager)*

*Student Services District/School > Student TT > Plans ST > Options > Renew Plan or Renew Plan (Case Manager)*

*Student Services District/School > Plan TT > Options > Renew Plan or Renew Plan (Case Manager)*

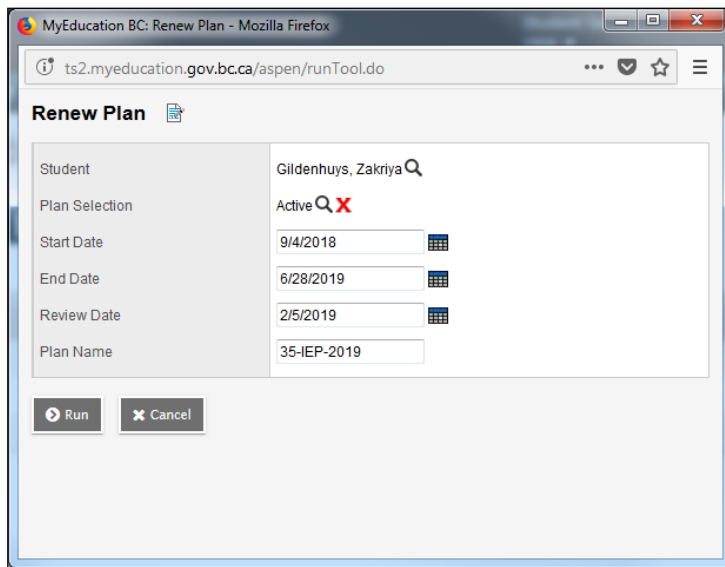

Renewing a Plan will create a copy of the plan if it is currently using the Competency Based template with a new start date. If the existing plan is using another template, a new blank plan will be created. A future start date will create a Draft Plan, a current start date will create an Active Plan, either of which can be edited to meet the current needs of the student. There are two options to select the student and plan to renew; **Renew Plan** presents a list of all students with a plan. **Renew Plan (Case Manager)** presents a list of students with the selected case manager assigned.

### 5.1.1 Options > Renew Plan

In the popup:

- **Student** – Select the student from the picklist
- **Plan Selection** – Select the Plan to copy from the picklist, or leave blank to create a new blank Plan with no copied information. Plans can only be copied using the same format. Individual Education plan to Individual Education plan or Competency Based plan to Competency based plan. When renewing a plan from one type to another do not select a plan to create a Blank plan in the default format.
- **Start Date** – Select the date the new Plan will be Active from the calendar icon
- **End Date** – Per district practice, leave blank or select the date the new plan will end from the calendar icon
- **Review Date** – Per district practice, leave blank or select the date the new plan will be reviewed from the calendar icon.

- **Plan Name** – enter the name for the new plan

The screenshot shows a web browser window titled "MyEducation BC: Renew Plan - Mozilla Firefox". The address bar displays the URL "ts2.myeducation.gov.bc.ca/aspden/runTool.do". The page content is titled "Renew Plan" and features a form with the following fields:

Field	Value
Student	Gildenhuys, Zakriya
Plan Selection	Active
Start Date	9/4/2018
End Date	6/28/2019
Review Date	2/5/2019
Plan Name	35-IEP-2019

At the bottom of the form, there are two buttons: "Run" and "Cancel".

## 5.1.2 Options > Renew Plan (Case Manager)

In the popup:

- **Case Manager** – Select the case manager from the picklist. The staff member must have the Individual Education checkbox ticked, and the Case Manager role assigned on the Staff details to appear on this list. (*School or District view > Staff > Details*)
- **Student** – Select the student from the picklist
- **Plan Selection** – Select the Plan to copy from the picklist, or leave blank to create a new blank Plan with no copied information. Plans can only be copied using the same format. Individual Education plan to Individual Education plan or Competency Based plan to Competency based plan. *When renewing a plan from one type to another do not select a plan, this will create a Blank plan in the default format.*
- **Start Date** – Select the date the new Plan will be Active from the calendar icon
- **End Date** – Per district practice, leave blank or select the date the new plan will end from the calendar icon
- **Review Date** – Per district practice, leave blank or select the date the new plan will be reviewed from the calendar icon.
- **Plan Name** – enter the name for the new plan

### Renew Plan (Case Manager)

Case Manager	Carrillorangel, Noella
Student	Starr, Zara
Plan Selection	Active
Start Date	19/04/2018
End Date	29/03/2019
Review Date	29/03/2019
Plan Name	35-IEP-2019

Run
Cancel

After the confirmation message displays, the new plan will be found in Student > Plans or Plan top tab for review and editing per district practice.

#### Messages

A new plan is created for the student Gildenhuis, Zakriya

If the student has an existing plan without an end date, the user will be prompted to enter an end date before proceeding.

#### Messages

Plan start and end dates cannot overlap. Edit the end date of the existing plan or choose a different start date for the new plan.

## 6.0 Deleting a Plan

It would be rare for a Student Plan to be deleted. . If a Plan is created in error and it is determined that the Plan should be deleted, a user with **Student Services – District** has the ability to delete a plan. Navigate into the details of the Plan and use **Options > Delete**.

## 7.0 Discontinue Student Services

*Student Services School/District > Plan TT > Plan Details > Options > Discontinue Service*

*Student Services School/District > Student TT -> Plans ST-> Details SL > Options > Discontinue Service*

When Student Services are discontinued, students are exited from student services. Plans change from *Active* to *Previous* or *Draft* to *Discarded*. Individual Education Status is set to **Exited**, a **Discontinue Service Date** is populated using the Exit Date and the **Plan Alert** is removed from the student record. The 1701 Designation Program is not end dated and remains intact.

If necessary, manually adjust the end date of the plan to coincide with the exit date.

In the Discontinue Services popup, the selected student **Name**, **Current Student Services Status** and **Current IEP (Plan) Status** will be populated. Fill in the remaining fields below as appropriate:

**Discontinue Services**

Student	Akinbobola, Platon
Current Student Services status	Active
Current IEP status	Active

Exit Date	28/11/2017
Exit reason	<div> <div></div> <div> Graduated  No longer meets criteria for designation  Other  Reached Age of Majority  Transferred out of district  Transferred out of province </div> </div>
Comments	Freeform text field

OK Cancel

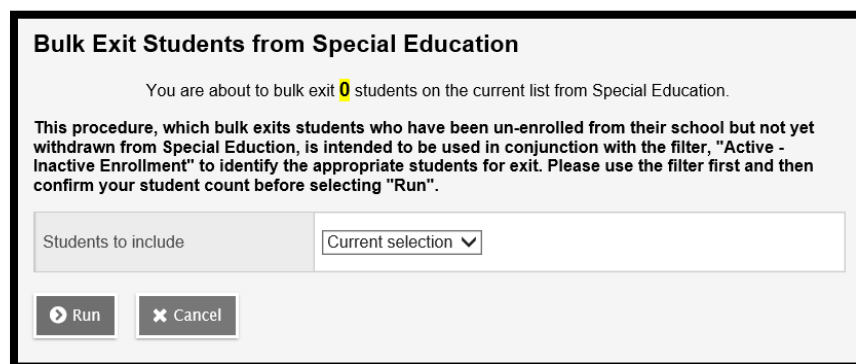

- **Exit Date** – Select the exit date from the calendar icon
- **Exit Reason** – Select the appropriate reason from the dropdown list
- **Comments** – Leave blank or enter freeform text per district practice

## 8.0 Bulk Exit Students from Special Education

### *Student Services District > Student TT > Options > Bulk Exit Students from Special Education*

Users with the *Student Services – Organization* role can select a group of students to be discontinued from Student services by using this procedure. The Student Services Status for these students changes from Active to Exited and the Plan changes from Active to Previous.

If a student or group of students is exited in error, they can be manually re-enrolled in Student Services. The student Plan remains intact, and can be set to active once the student is Active again in Student Services.

**Bulk Exit Students from Special Education**

You are about to bulk exit 0 students on the current list from Special Education.

This procedure, which bulk exits students who have been un-enrolled from their school but not yet withdrawn from Special Education, is intended to be used in conjunction with the filter, "Active - Inactive Enrollment" to identify the appropriate students for exit. Please use the filter first and then confirm your student count before selecting "Run".

Students to include:  Current selection:

## 9.0 School Withdrawal/Transfer of Student Services Students

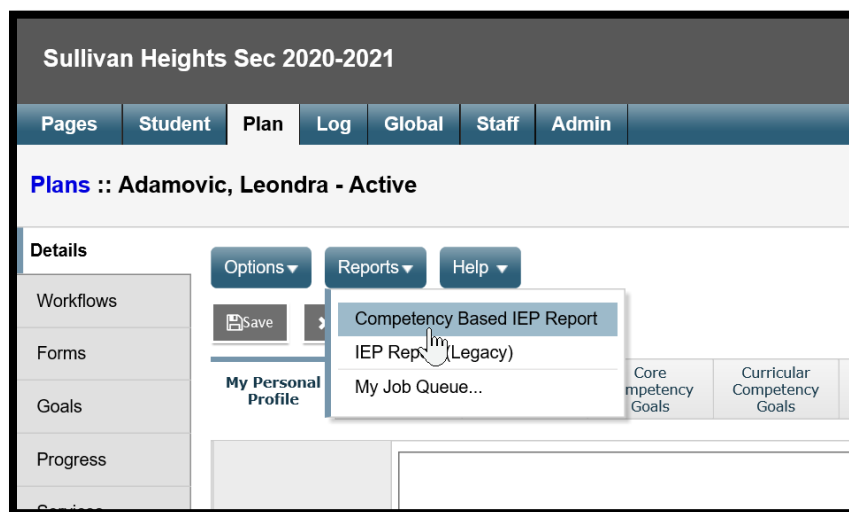

Two processes are available in MyEd BC for the withdrawal of a student in School or District View

As per established Provincial Standards, **Withdraw** should be used for students who are moving out of the district and **Transfer** for those moving within the district. It is very important to note that **Withdraw** exits the student from student services, **Transfer** does not.

*Please see the Enrollment and Demographics guide for further details on Withdrawal and Transfer functionality.*

## 10.0 Printing/Publishing the Competency Based IEP

- Student Services School/District View > Plan TT > Details ST > Reports > Competency Based IEP Report
- Student Services School/District View > Plan TT > Reports > Competency Based IEP Report
- Student Services School/District View > Student TT > Plans ST > Details > Reports > Competency Based IEP Report
- Staff View > Student TT > Documents ST > Plans SST > Details > Reports > Competency Based IEP Report
- School View > Student TT > Documents ST > Plans SST > Details > Reports > Competency Based IEP Report

Individual Education Plans or Legacy IEPs can be printed using the appropriate report.

### Competency Based IEP Report

I have won awards for dancing. When I am singing I am able to remember the words to the song.		

## 11.0 PSR IEP Inclusions

Inclusions will appear on the Permanent Student Record (PSR) report.

If the Grade sub level = HS then the inclusion section will display Homeschooled under the Student Record Inclusion on the Permanent Student Record.

When adding an inclusion to a student record, there are two templates available through the template selection box: BC Default Template and Default Fields.

### BC Default Template

In the BC Default Template, the “Inclusion type” field is pre-populated with the word “Inclusion” and this field cannot be edited.

### Default Fields

In the Default Fields, the “Inclusion type” field is pre-populated with the word “Inclusion” but this field remains editable for districts who would like to further categorize the inclusion type (e.g., Inclusion 1, Inclusion 2, Inclusion 3, etc.).

To enter an inclusion for a student:

**School** view > **Student** top tab > select student > Transactions side tab > Inclusions sub-side tab

1. In the **Options** menu, select **Add**.
2. Once the Inclusion page opens, select the template you are using:

The screenshot shows the 'Student List' interface for student 12 - Abdou, Ashdyn. The 'New Student Event Tracking' form is open. The 'Options' menu is visible at the top, and the 'BC Default Template' is selected in the dropdown menu. The form includes fields for 'Inclusion date', 'Expiry Date', 'Inclusion type' (pre-populated with 'Inclusion'), 'School year', and 'PSR Comment'. The 'Inclusion type' field is highlighted with a red box. The 'BC Default Template' dropdown is also highlighted with a red box.

- In the *Inclusion date* field, type or use the calendar icon to select the effective date of the inclusion.
  - In the *Expiry Date* field, type or use the calendar icon to select the expiry date of the inclusion if applicable.
  - In the *School year* field, use the  icon to select the year the inclusion is recorded for.
  - Use the *PSR Comment* field to record the necessary information.
- Click Save.

## 12.0 Security Restrictions for Documents

Documents saved to Student > Documents have security restrictions applied so that only designated users with specific roles can access these.

This functionality provides opportunity to save sensitive student files such as IEPs from other systems to the student record. These files will remain with the student record as the student moves through the system.

Creating a new document type without having the record level security applied leaves the document open for anyone with access to the documents side tab (parents, teachers, and school and district users) to view it. Proceed with caution. If in doubt, contact the service desk for assistance.

- District View > Admin > Data Dictionary > Document Type Codes > Codes.** From the document type codes click on **Options > Add**.
- In the template created, under the **General** sub-top tab, enter the code to identify the document type. A description can be added but no other fields need be populated. Save.

3. Select the Record Level Security sub-top tab. Set the **Role visibility type** to **Include**. Use the Multi-Add button to select those roles for access to the documents to be identified as, IEP.

	Name
<input type="checkbox"/>	Student Services - District
<input type="checkbox"/>	Student Services - School
<input type="checkbox"/>	Student Services: Enroll & Read- School
<input type="checkbox"/>	Student - Student Self Assessment add-on
<input type="checkbox"/>	Student Services: Read Only - District
<input type="checkbox"/>	Student Services: Read Only - School

4. Save the changes.

Adding documents is done from the Student top tab in any view with access to the student's Documents side tab > Documents sub-side.

5. School View > Student > Document > Document > Options > Add.

- Enter a name for the document in the template.
- In the **Type** field select the document type to be uploaded. In this example it will be the restricted, IEP document type.

**Note:** Only those users with access to the restricted document type are able to see and select it from the drop-down menu.

- Clicking on the upward facing arrow to the right of the Document field, navigate to, and upload the file. Once downloaded the Filename field will display the name of the document with the extension.
- From the **Format** drop-down list, select the document format. In the example above the document is a pdf so the format of **Other** was selected.
- Click Save.

Name	Type	Filename	Document	Format
IEP Test	IEP	2017-07-06 10-42-11 AM.pdf		Other

6. Only users with permission to access the document will be able to do so.

**Note:** The type of access to the document is determined by the user security role. Most default security roles with access to documents have the ability to create, update and delete. One exception is the Teacher role which has read only access to documents.

Documents may be viewable by Parents in the Family Portal. Access is restricted by Document type.

## 13.0 Student Services Security

### 13.1 Student Services Security Roles

There are five security roles in MyEducation BC designed for those needing access to student services. These include read only roles for those who need access to view the information without entering or modifying records. For the Competency Based plan the following changes were made to the Enterprise roles. If districts are using custom roles, they may need to make similar changes.

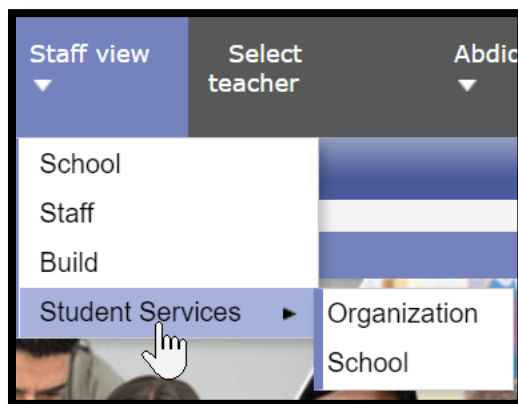

Role	Remove	Add
Student Services - District	The Workflow side tab	LOG TT Global TT > Designation ST and Delivery Log ST
Student Services - School	IEP administrative override The Workflow side tab	LOG TT Global TT > Designation ST and Delivery Log ST
Student Services: Enroll & Read- School	IEP administrative override The Workflow side tab Global TT	LOG TT – History only
Student Services: Read Only – School	IEP administrative override The Workflow side tab Global TT	LOG TT – History only
Student Services: Read Only – District	IEP administrative override The Workflow side tab	LOG TT – History only
Publish Add On Role – Special Education View		
Publish Add On Role – Special Education School View		

## Student Services – School

- As the role implies, the school level role is designed with the student support teacher/case manager in mind. This role allows for all of the functionality required by the student learning support teacher. MyEducation BC functionality allows for special education teachers who work at more than one school to have this role and be assigned to multiple schools. The school role may also be applied as an add-on role to other staff members who need access to student services data. These other positions might include school administrators, school or district counsellors, or school clerical staff that might be responsible for data entry in this area.
- Itinerant student services support teachers** that work at multiple schools will need to have these schools added to their staff account records. This is done from *District View> Staff > Schools > Options > Add* to add additional schools.

## Student Services – District

- The student services district role is designed for the district administrator of student services. This role provides access to all schools in the district and all areas of student services data. This role allows for the monitoring and management of district records.
- The following processes are limited only to those with the district security role:
  - Change a student's Individual Education Status
  - Use the Options menu to Exit a student from student services, bypassing the workflow process
  - Delete a Plan
  - Change a Plan status
- The district administrator role for student services has access to both an Organization (district) view and a School view.

The organization view provides the user with a district perspective with reference to the information provided from the available tabs. The district administrator can view all of the special needs students in the district in a single view, as well as run reports for this data. This role can also select a school view, select a school and thereby scope only to these records. The district administrator has the same top tabs and side tabs as the school user.

### **Student Services: Enroll & Read – School**

- This role is designed for the school user where the school assigns designations and may also be enrolling students into student services, This role should not be used in conjunction with any other Student Services role as it may limit the functionality of the other roles.

### **Student Services: Read Only – District**

- This role allows read only access at the district level for all areas within Student Services. Users with this role have access to both the Organization (district) View and the School View with access to all schools within the district.

### **Student Services: Read Only – School**

- This role allows read only access at the school level for all areas within Student Services. Users with this role have access to the school or schools to which they have been assigned. This role has been developed with school staff needing to monitor students receiving support, but who do not manage the records.

### **1701 Designation Role**

- This role allows a user to enter the Ministry designation in the School view for a selected student. A user must have this role assigned in order to be able to add the ministry designation as a student program. Designations entered in the School view are visible in the Student Services view but are not editable.

### **Teachers**

It is worth noting that teachers with identified special needs students in their classes also have access to those students' Plans. Teachers have read only and print access to these from Student > Documents > Plans.

### **Clerical**

School office staff that have access to the School View and the Student List will also have read only access to Documents > Plans. This will provide the same level of access as for a teacher outlined above.

### **Publish Add On Role – Special Education View**

This role is for District Level Special Education Users. It give access to the Special Education Organization View This role allows users to Run Publish Add-on definitions at the Special Education Organization School View. Users with this role can also publish reports to the portal.

### **Publish Add On Role – Special Education School View**

This role is for School Level Special Education Users. It gives access to the Special Education School View. This role allows users to Run Publish Add-on definitions at the Special Education School View. Users with this role can also publish Student reports to the portal.

## 13.2 Staff Details – Individual Education and Individual Education Role

### Special Education

*District/School > Staff > Details*

Staff Detail settings enable a staff member to display in the Student Services view.

The screenshot shows the 'Staff Details' form for Alnooman, Princeaaronbruce. The form is divided into several sections. On the left, there is a sidebar with navigation links: Attendance, Schedule, Schools, Licenses, Degrees, Positions, PD Extracurricular, Documents, and Snapshots. The main form area contains the following fields:

- Personal Information:** Suffix (dropdown), Legal first name (Princeaaronbruce), Legal middle name, Legal last name (Alnooman), Usual first name (Princeaaronbruce), Usual last name (Alnooman), Login ID (palnooman\_sc523368), Date of birth (dd/mm/yyyy), Gender (F).
- Contact Information:** Home phone, Cell phone, Home room.
- Staff Information:** School > Name (Nakusp Elementary), Staff Type (Teacher), Staff ID (742059), Employee number, Calendar ID (Standard).
- Individual Education:** Individual Education (checked), Individual Education Role (dropdown menu, highlighted with a red box).
- Other:** Receives Online Reg emails (checkbox).

Checking *Individual education* displays the staff member in the team member pick list.

Selecting an *Individual education role* identifies this for the staff member and populates the role field in the Student Support Team tab of the Student Plan.
